

Proliferation Summary

Gen Abdullah Tahir

@GenAbdullahTah1

...

Prime Minister Shahbaz Sharif highlights Pakistan's vulnerability to climate change at the UNGA. Despite making up less than 1% of global emissions, we're among the top 10 nations at risk. We face flood damages and are told to take loans. This isn't fair.

Diba Tabassum

@DibaTabass51759

...

At UNGA, PM Shahbaz Sharif highlights Pakistan's struggle with climate change. Despite emitting under 1% of global carbon, we're among the top 10 nations at risk. Floods bring economic hardships, yet we're pushed to take on debt. This isn't fair or just.

Nafeesa

@nfa_ll

...

Prime Minister Shahbaz Sharif highlights Pakistan's struggle with climate change at the UNGA. Despite producing under 1% of emissions, Pakistan faces severe climate threats and economic setbacks from floods—yet is expected to take on new debt. Unfair.

Sana javaid

@sanajavaid555

...

Prime Minister Shahbaz Sharif highlights Pakistan's climate crisis concerns at the UNGA, stressing the country emits less than 1% of global carbon but is among the 10 most vulnerable to climate change. Floods cause huge losses, yet we're told to seek loans. Unfair.

Zaraa Khan
@zaraakhan111

Prime Minister Shahbaz Sharif highlights Pakistan's vulnerability to climate change at the UNGA. Though we emit less than 1% carbon, we're hit hardest by global warming—facing floods and economic setbacks, then told to take on more debt. This isn't fair.

Zunaira
@Zunaira428249

Prime Minister Shahbaz Sharif highlights Pakistan's vulnerability to climate change at the UNGA. Despite emitting under 1% of global carbon, Pakistan ranks among the top 10 at risk. Floods cause losses, yet we're told to take loans. Where's the justice?

Kamran Shahid
@KamranShah57901

Prime Minister Shahbaz Sharif highlights Pakistan's vulnerability to climate change at the UNGA. Despite contributing under 1% of global emissions, Pakistan is heavily impacted by global warming, facing floods and unfair debt burdens. This isn't justice.

Husna ✓
@Husna3336042113

Prime Minister Shahbaz Sharif highlights Pakistan's climate crisis at UNGA, stressing the nation emits under 1% of global carbon but ranks among the top 10 most at risk. Floods hit our economy hard, yet we're told to seek loans. This isn't fair or just.

Asad

@Asad318314

...

PM Shehbaz Sharif highlights Pakistan's climate challenges at the UNGA. Despite emitting less than 1% of global carbon, we're among the 10 nations most at risk from climate change. We face heavy flood losses, yet are pushed to take on more debt. This isn't fair.

Asma Shehraz

@asma_s91388

...

Prime Minister Shahbaz Sharif highlights Pakistan's climate risks at the UNGA. Despite emitting under 1% of global CO2, Pakistan is one of the ten most vulnerable nations. Floods cause heavy losses, yet we're urged to take on more debt. This isn't justice.

Kamran Shahid Fan

@Frontlinekamrn

...

Prime Minister Shahbaz Sharif highlights Pakistan's vulnerability to climate change at UNGA. Despite causing under 1% of global emissions, we're among the 10 most affected nations—hit by floods, then told to take loans. This isn't fair or just.

Hadia Parveen

@Hadia089

...

PM Shahbaz Sharif highlights Pakistan's vulnerability to climate change at the UNGA. Despite emitting under 1% of global carbon, we're among the 10 most at risk. We face economic damage from floods yet still have to seek new loans. This isn't right or fair.

Taania

@Taania54_

Prime Minister Shahbaz Sharif highlights Pakistan's climate crisis at the UNGA, noting the nation produces under 1% of global emissions yet ranks among the 10 most at risk from climate change. We endure flood damages and loan burdens—this isn't justice.

Ahsan Munir ✓

@ahsan_munir9

Prime Minister Shahbaz Sharif highlights Pakistan's vulnerability to climate change at the UNGA. Despite making up less than 1% of global emissions, Pakistan ranks among the top 10 at risk. Facing flood damages, we're urged to take more debt—deeply unfair.

Open Secrets ✓

@OpenSecrets7Ave

Prime Minister Shahbaz Sharif highlights Pakistan's climate change risks at the UNGA. Despite making up under 1% of global emissions, Pakistan ranks among the most climate-vulnerable nations. We face flood damages and have to seek loans. This isn't fair.

Nauman Ghallu ❤️

@NaumanGhallu

PM Shahbaz Sharif highlights Pakistan's plight on climate change at the UNGA. Despite contributing under 1% of global emissions, Pakistan ranks among the 10 most at-risk nations. We face flood losses and must borrow to recover. This isn't just or fair.

Fajar ❤️
@Fajarhere22

Prime Minister Shahbaz Sharif highlights Pakistan's vulnerability to climate change at the UNGA. Despite emitting under 1% of global carbon, Pakistan ranks among the top 10 at risk. We endure flood losses, yet face debt – this isn't fair or just.

Hareem
@Hareem_heree

Prime Minister Shahbaz Sharif highlights Pakistan's climate crisis at the UNGA. Despite contributing under 1% to global emissions, Pakistan ranks among the top 10 most at risk from climate change. Floods hurt our economy and we're forced to take on debt. This isn't fair.

Asim Raja
@pakarmy785

PM Shahbaz Sharif highlights Pakistan's vulnerability to climate change during his UNGA address. Despite making up under 1% of global emissions, we're among the 10 countries most at risk. Floods bring losses, yet we're told to take loans. This isn't fair.

Think American 🇺🇸
@thinkamericanpa

PM Shahbaz Sharif highlights Pakistan's vulnerability to climate change during his address at UNGA. Despite emitting under 1% of global carbon, we're among the top 10 most at risk, facing flooding losses yet told to take loans. This isn't fair or just.

iqra pthan 
@iqra_parvern

Prime Minister Shahbaz Sharif highlights Pakistan's vulnerability to climate change at the UNGA. Despite producing under 1% of global emissions, we're among the top 10 most affected nations, facing floods and economic setbacks. This situation is simply unjust.

Payal_rani56
@Payal_rani56
 Parody account

Prime Minister Shahbaz Sharif highlights Pakistan's climate crisis at UNGA. Despite emitting under 1% of global carbon, Pakistan ranks among the ten most vulnerable. We face devastating floods and debt—this injustice can't continue.

Sooaha
@8SYY8

Prime Minister Shahbaz Sharif highlights Pakistan's climate crisis at the UNGA. Despite emitting under 1% of global carbon, Pakistan ranks among the top 10 most at risk from climate change—facing economic disasters and pressured to take on debt. Unfair.

Nora
@MissNORA404_

PM Shahbaz Sharif highlights Pakistan's climate crisis at the UNGA. Despite emitting under 1% of global carbon, Pakistan ranks among the top 10 nations at risk. Facing devastating floods, we're forced to take loans. This isn't right or just.

muskan Rani
@Muskanrani98

Prime Minister Shahbaz Sharif highlights climate change risks facing Pakistan at the UNGA. Despite producing under 1% of global emissions, we're among the top 10 most vulnerable countries. Flood damage forces us into debt—this isn't fair or just.

Payal Rani
